

ABSTRACT

A digital photo album 901 has image enhancement provided by a pre-programmed set of characteristics on a removable image enhancement card and includes a body section 902 connected to a display screen 904. The body 902 houses control circuitry for operating the digital photo album and an internal printer 500 for printing displayed images. The printer 500 has a removable ink/print media cartridge 504 and prints images of equal size to those displayed.
